

Monthly Purchased Gas Adjustor Rates for Arizona Natural Gas Local Distribution Companies

This page is meant to provide natural gas customers in Arizona with information on the monthly change in their rates, related to the changing cost paid by Arizona natural gas local distribution companies for the natural gas commodity. Shown below is a table for each Arizona natural gas local distribution company, showing the purchase gas adjustor rate and bank balance amortization rate applicable to each month.

Billing Month - the rate shown for each month is the rate applied to all applicable bills sent to customers during that month.

Purchased Gas Adjustor (PGA) Rate - this rate adjusts automatically each month to reflect the average cost of gas for the most recent 12-month period for which information is available.

PGA Bank Balance Amortization Rate - this rate is a temporary surcharge or credit, approved by the Commission, which allows the local gas distribution company to reduce the over or under-collected PGA Bank Balance. The PGA Bank Balance becomes over or under-collected when the local gas distribution company recovers more or less through its rates than what it paid for its natural gas.
